

SAVE THE DATE: Stroke Rehabilitation: Theory & Fact: An Outcomes Based Approach

This call will feature Dr. Scott Hardin, Physiatrist, Medical Director Physical Medicine and Rehabilitation, Aurora St. Luke's Medical Center. Dr. Hardin will discuss various stroke rehabilitation modalities and focus on those that have proven outcomes. He will also discuss some new stroke rehabilitation therapies.

Date: Thursday, June 10, 2010

Time: Noon Central/1PM Eastern

Dial in: (866) 551-3680 Passcode: 4248142#

Recommended audience: Primary stroke center coordinators, nursing, physical therapy, occupational therapy, speech language pathologists, home health care and others involved in the stroke rehabilitation process.

Learning Objectives: Upon completion of this call, participants will be able to:

1. Distinguish between stroke rehabilitation therapies that are theories or have actual outcomes.
2. Identify at least two new therapies for stroke rehabilitation.

Visit <http://qlrsn.uic.edu> to register after April 15. *Participants must register and include the required information, participate on the call and complete the online evaluation.* Please familiarize yourself with the contact hours requirements handout.
