## Burden of Stroke 2008

This compilation of stroke statistics offers easy-to-read and access regional and state risk factor, mortality and prevalence data for stroke. A power point presentation and talking points are also available upon request.

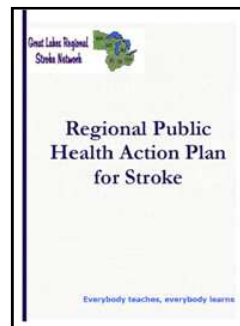

## Partnering with Professional Sports

This document provides ideas of how to incorporate a stroke message into professional sporting events. Real life examples are included.

## Stroke Atlas 2008

This document provides county level stroke mortality data in a GIS format and offers interpretations of the data.

## Regional Public Health Action Plan for Stroke

This action plan provides data as well as goals, objectives and strategies for reducing stroke and improving stroke care in the Great Lakes region.

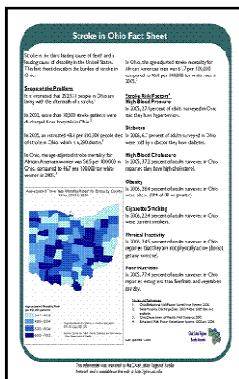

## GLRSN Website

This website is constantly updated to include the latest information about events of the GLRSN and provide resources including past quality of care presentations.

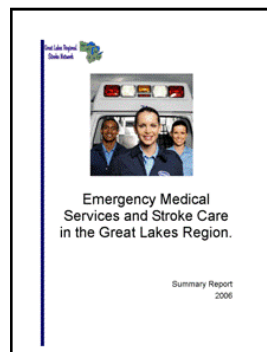

## The Wave Newsletters

Members of the GLRSN Listserv receive this monthly newsletter which includes state stroke activities, workgroup progress, helpful resources and updates.

## State Fact Sheets

Data is taken from the GLRSN Burden of Stroke Document 2008 to create individual state fact sheets for the entire Great Lakes Region.

## GLRSN EMS Inventory

To better understand the role of emergency medical services in stroke throughout the Great Lakes region, this document details regional and state by state EMS information.
