2011 Air Quality Management Conference

November 3, 2011

Abbington Distinctive Banquets
3 S. 002 Route 53
Glen Ellyn, IL 60137

Air & Waste Management Association Lake Michigan States Section is pleased to once again offer the Midwest's most comprehensive annual program on air quality management issues. The LMSS's Air Quality Management conference has become a tradition in the region - bringing together environmental professionals from industry, government, environmental services and the legal community to learn about the hottest issues and most important developments in this rapidly evolving field. Is your company prepared for consequences of the proposed changes to the NAAQs? Do the revisions to the MACT standards (Boiler, Utility, Refinery, CISWI) affect your company? Are you up-to-date on the latest GHG issues? Pretty soon, you'll be needing a lot of new information. Plan on joining us at this year's Annual Air Conference being held at the Abbington Banquets in Glen Ellyn.

Companies that supply products and services for environmental management will have exhibits on display at the conference. There are also sponsorship opportunities available. For information on exhibiting or sponsorship, contact Robin Pelsis at (847) 202-0418 or robin.pelsis@lmawma.org.

Clean Air Act Primer

November 2, 2011

7:00-9:00 p.m.

Abbington Distinctive Banquets
3 S 002 Route 53
Glen Ellyn, IL 60137

Environmental professionals working in the air quality area should have an understanding of what the Clean Air Act is and what it entails. This primer is perfect for environmental managers with expanding air quality responsibility, supervisors directing air quality professionals, and experienced air quality managers looking for a broader perspective on their field. The course will provide an overview of the entire Clean Air Act, with special attention on Title III - Air Toxics and Title V - Clean Air Act Permitting. Handouts distributed from the course will cover the Clean Air Act and its details, Air Toxics and other valuable information that can serve the professional as a reference for years to come.

Course Instructors are: Dale G. Kalina, PhD., a Principal with Environmental Partners, Inc., with 20+ years experience in dealing with air pollution control regulations and Christina M. Landgraf, an attorney who represents clients in environmental regulatory compliance, litigation, and transactional matters.
