

The Chicago Biomedical Consortium is supported by The Searle Funds at The Chicago Community Trust.

Welcome to the Chicago Biomedical Consortium

The mission of the Chicago Biomedical Consortium is to stimulate collaboration among scientists at Northwestern University, the University of Chicago, and the University of Illinois at Chicago that will transform research at the frontiers of biomedicine, it will:

- * Stimulate research and education that bridge institutional boundaries.
- * Enable collaborative and interdisciplinary research that is beyond the range of a single institution.
- * Recruit and retain a strong cadre of biomedical leaders and researchers in Chicago.
- * Promote the development of the biomedical industry in Chicago.
- * Execute a plan capable of improving the health of citizens of Chicago and beyond.

About Our Grants

Currently, the CBC offers several funding opportunities to advance biomedical research in Chicago. These are titled Catalyst, Spark and Lever Awards.

Catalyst Awards: Stimulate and facilitate research and education collaborations.

Spark Awards: Advance multi-institutional collaborations of exceptional creativity.

Lever Awards: Increase the impact and competitive edge of large-scale applications for external funding.
